## SERVICES PACKAGE 3

ESS Compliance Sweep

# Service Overview

## Environmental & Social Safeguards Alignment

Compliance with Environmental and Social Safeguards (ESS), such as those mandated by the World Bank (WB) or Global Partnership for Education (GPE), is a mandatory requirement for major development funding.

The **ESS Compliance Sweep** is a rapid, fixed-price service that aligns your project design with these critical standards and produces the necessary risk documentation.

**The service's price will reflect the specialized, high-risk nature of safeguards compliance, adopting the user's suggested price point.**

# Ideal Client

Organizations implementing projects funded by multilateral banks or major donors (e.g., WB, GPE) that require expert assurance that their activities meet international safeguard standards, particularly in the education sector.

*Driving resilient results through strategic policy and rigorous project management.*

## How to Engage

- **Submit Request:** Provide your project document (e.g., proposal, concept note) and specify the relevant ESS framework (e.g., WB ESS, GPE).
- **Confirmation:** We confirm scope and payment within 24 hours.
- **Delivery:** Receive the complete ESS Compliance Kit and a 1-hour remote consultation within 3 business days of confirmation.

## WB/GPE ESS Compliance Check

A concise memo detailing how the project design aligns with the relevant WB/GPE ESS standards, highlighting areas of strength and potential gaps.

## Risk Register & Mitigation Plan

A comprehensive, project-specific risk register identifying potential environmental and social risks, their likelihood, impact, and a Mitigation Plan (detailing corrective actions).

## Gender & Inclusion Adjustments

Specific recommendations and suggested text to ensure the project design fully integrates gender and inclusion considerations in line with donor requirements.

## Activity Design Review

Review of 3-5 key project activities to ensure they are designed to "do no harm" and comply with safeguard requirements.
